

CHAPTER 7

HEALTH AND SANITATION

ARTICLE V. DUMPS

A state law which is effective 7/1/69, V.S.A. , T. 24, Sec. 2201a, requires cities and towns to maintain a sanitary landfill. Montpelier has complied with this law by entering into a contract with a private sanitary landfill operator; therefore, there are not any sections to be included in this Article. All prior ordinances relating to dumps have been repealed by omission since they are no longer applicable; however, should the City ever decide to maintain a sanitary landfill, ordinances in relation thereto can be placed in this Article.

Enacted October 25, 1972.
