

## **Economics & Livelihoods September 26 Notes**

Hello folks,

We at long last held a meeting of the economics-livelihoods subgroup. We further developed the plans for the November 14th roundtable of program that will be broadcast on ORCA.

The subject for this round table will be "What do you foresee in the next thirty years as to Growth and Economic development" We will have three or four persons who are residents of the city on the panel and one of us from the subgroup will moderate the discussion. The show will last one hour.

The second outcome of the meeting was to make a request to Gwen and her staff for data on the age of the Cities population as well as household economic data. We intended to use this data to inform ourselves as to the current state of the community.

The third outcome of the meeting was that of agreeing to meet each Monday for the Month of October at 5:30 each Monday tentatively in the city council room of city.

Therefore next Monday Oct. 1 will meet at 5:30. We also agreed that we will attempt to have meetings last no longer than one hour.

If you have ideas or questions and want or need additional materials, please contact me either at my e mail: [john@bugleg.com](mailto:john@bugleg.com) or ph 229-4734

Please put on your calendars these meeting dates and time.

John Bloch
