

CITY COUNCIL Agenda Item #18-275

Date: Sept. 26, 2018

Consent Discussion

SUBJECT: Presentation and discussion of new public garage design proposal

SUBMITTING DEPARTMENT: City Manager's Office

RECOMMENDED ACTION: Discussion and Council input

RELATED COUNCIL GOAL/PRIOR ACTION: Responsible Government; Community Prosperity; Environmental Stewardship; Welcoming Community; Sustainable Infrastructure; Thoughtfully Planned Built Environment; Housing

EXPENDITURE REQUIRED: N/A

SOURCE OF FUNDS: N/A

LEGAL REQUIREMENTS: N/A

BACKGROUND INFORMATION: Greg Rabideau, the architect working on behalf of the City to design the proposed public parking garage for State Street, met with the Council last week to discuss structural and design options. The Council approved a structural plan (a four-story, switchback building). In addition, the public and the Council proposed design changes to the exterior of the building, which Greg is using to re-draft his drawings. Greg will bring the drawings to Council at Wednesday's meeting for further input (we will circulate them earlier if Greg completes the drawings; we'll try to get these in a format to show on the screen). Final designs are due to the Planning Department by 11 a.m. on Thursday, 9/27.

SUPPORTING DOCUMENTS: N/A

INTERESTED PARTIES: City Manager's Office, Planning Department; DPW; Finance

CITY MANAGER'S APPROVAL:

A handwritten signature in black ink, appearing to read "W. Hoffman".
