Public Health and Safety

Coronavirus (COVID-19): Weekly Report: As of March 5, 2021

This weekend will mark one-year since the first confirmed COVID-19 case in Vermont. However, looking forward and to positive trends- 20% of Vermont adults have now had at least one dose of a COVID-19 vaccine.

Starting this week, those over 65 years of age can sign up for vaccination appointments. Links to sign up are below. Currently, over 106,000 Vermonters have been vaccinated, and the State anticipates more opportunities to roll out vaccinations as more vaccine variants get approved and distributed. Starting next week, teachers, other school staff, and child care providers who work directly with students/children will be able to get vaccinated in special on-site clinics with a one-dose variant of the vaccine.

The National Guard is being called up to start doing vaccination events, as the State is opening expanded vaccination registration opens to Vermonters 16-64 with high risk medical conditions on March 8th. An outline of eligible health conditions and more information can be found [here on the Health Department website](#).

Remember that even with the rollout of more vaccines to Vermonters, we have not escaped the impact of COVID-19. There are still thousands of cases in Vermont, and we all still have a moral obligation to stay safe, follow the guidelines, and try to reduce those who get sick in our communities.

TRASH RECEPTACLES:

As a resident of Montpelier, are you wondering about the best area to place a trash receptacle for trash pickup?

Please, always, place trash receptacles for pick up at the corner of the driveway, behind the sidewalk. If you do not have a sidewalk on your street, please place receptacles on the corner of the drive, in the street closest to the curb. (Not obstructing traffic).

Please do not place receptacles within the sidewalk.

Responsive and Responsible Government

Annual Meeting Results

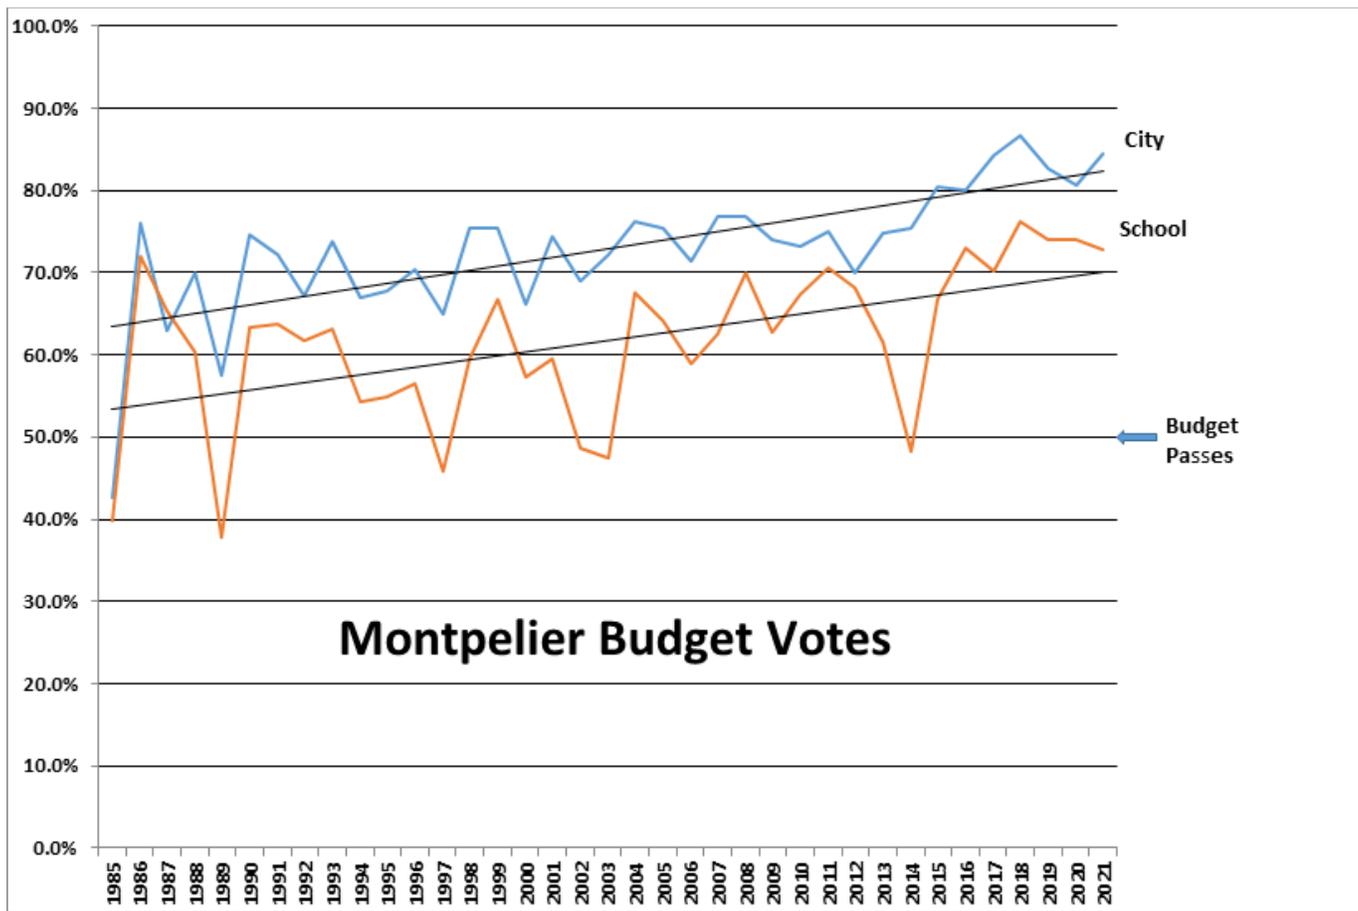

Congratulations to Council Members Hierl, McCullough, and Richardson on being re-elected. Thanks to Nat Frothingham and Alice Goltz for running for election. The city government is healthier when people are willing to step forward and participate.

2,842 people voted on the city budget. The actual overall turnout was about 2,950.

Since 1985, this year's City budget vote total was the fourth highest Town Meeting total. It was, by far, the highest city voter total for a non Presidential Primary year. The next highest was 2,385 in 1990 and 2,326 in 2014.

The City budget had 84.4% yes votes. This is up 3.7% from last year's 80.7% and is the 7th consecutive year that the City budget has received 80% or greater support.

The School budget received 72.7%, slightly down 1.3% from last year's 74.0%. This is the 6th straight year of 70% or greater support for the School budget.

Cemetery Commission

For many years the City and the Green Mount Cemetery Commission have worked successfully within an informal cooperative framework. The Commission is a separately chartered independent agency who could, if they chose, operate on their own and present their own budget item to the voters. Instead, the City and Cemetery share work, resources, and even an employee. The Cemetery budget and capital items are included within the city’s overall budget.

This year, the Commissioners, Cemetery Director and I have been working on a written memo of understanding which documents the current arrangement and clarifies some grey areas. We all feel that this is important for the future as people may change and memories lost. I’m pleased to report that this has been a very smooth and collaborative effort. I expect that a recommended MOU will be on the consent agenda in one of the next few meetings.

Importance of Smoke Detectors and Sprinklers

Monday morning the Fire Department responded to a reported fire at the Lane Shop apartments. On arrival crews found a fire in a first floor apartment. The fire was contained, and mostly extinguished by the buildings sprinkler system. The occupant of the apartment was asleep in a second floor bedroom and was awakened by the buildings alarm system. This serious fire is another example of the importance of having a working notification system, and sprinkler system. Working sprinkler systems have saved a number of buildings in Montpelier.

This is a perfect reminder, and opportunity to check your smoke detectors to make sure they are working properly. Anyone that needs assistance checking their smoke detectors can call the Fire Station and request assistance.

Parklets

The City Council is in the process of re-enacting the temporary parklet ordinance which was in place last summer and expired on October 25th. This will allow restaurants and merchants to take advantage of the same relaxed standards this summer as it appears that COVID restrictions will continue. The second, and presumably final, reading is on the March 10th agenda.

Inclusive, Equitable and Engaged Community

Social Equity & Justice Advisory Committee

The Committee has begun working with consulting firm Creative Discourses, Inc. to develop information about the community. Creative Discourses has begun holding a series of meetings with city staff to learn more about the work environment, unintentional biases, etc. Thus far the meetings have been well received by our employees.

Montpelier Community Justice Center

The Montpelier Community Justice Center provides Restorative Justice services for Montpelier residents including Restorative Justice Panels, Reentry services, Circles of Support and Accountability and Victim Outreach. Additionally, the Conflict Assistance Program provides mediation and consultation for Montpelier residents in need of help resolving disputes. Volunteer opportunities exist in all of our programs and with the Community Advisory Board where members help guide our work. City Hall Outdoor Wi-Fi Hotspot

The City of Montpelier, through the Department of Public Service (PSD) Wi-Fi Hot Spot Program has installed a public Wi-Fi outside the City Hall Building (39 Main Street Montpelier).

This PSD sponsored project is in response to the widespread closure of facilities due to the COVID-19 outbreak, which has significantly limited folks' ability to access free and reliable internet. The need for access to a reliable internet connections for healthcare, education, and government services has grown exponentially while existing public access points have become suddenly unavailable due to social distancing requirements. Vermont PSD has assisted the City in addressing this emergency gap in available public Wi-Fi by contracting for the rapid installation of a commercial-grade outdoor Wireless Access Point. They have installed 190 hotspots throughout the State as part of this program. Montpelier is pleased to have been included.

The City Hall Wi-Fi site is accessible at all hours from a parked vehicle on the road or in-person in the courtyard in front of City Hall and the parking lot to the immediate right of the building. As a COVID-19 safety precaution, the City discourages users from congregating outside. The Wi-Fi name is "**Montpelier Hotspot**" and you should be able to connect without a password.

You can track all the State Vermont Public Wi-Fi sites here: [Wi-Fi Hotspot Map](#)
