There will be limited COVID-qualifying exemptions to this requirement, more information can be found at <https://labor.vermont.gov/>

Environmental Stewardship

Tree Walk in Hubbard Park with John Snell:

Saturday, May 15 at 3pm - meet at New Shelter in Hubbard Park

Have you wondered how to tell a maple from an ash or a beech from a butternut? Join Tree Board chair, John Snell, in a walk around Hubbard Park to learn about trees and simply appreciate their diversity. We'll also talk about the history of the forest and how responsible forest management can enhance the health of our environment. Free, no registration required, masks and social distancing required.

Volunteer with Montpelier Parks!

Do you have a hankering to get outside and do something positive to help the community? We have a volunteer project for you! We usually host at least 1 community volunteer day every week to do something different around our parks. It might be trail work, planting trees, pulling invasive plants, working at the FEAST Farm, or something else, but you'll get to do meaningful work with our great crew and other volunteers. To sign up for our listserv email JHuettenmoser@Montpelier-vt.org.

City of Montpelier awarded Federal Funds for Hubbard Park Expansion

The City of Montpelier was awarded \$258,000 from the United States Forest Service's (USFS) Community Forest Program as matching funds to expand Hubbard Park. The funds will be used as a 50% match to acquire additional acreage for Montpelier's beloved park behind the State House. This additional land will conserve important natural resources such as wetlands and rare natural

communities, as well as provide permanent public access for outdoor recreation. This project is part of a larger effort to ensure more community members have access to the health and wellness benefits parks and trails provide, and to work towards making Montpelier a destination for outdoor recreation. The Montpelier Parks Commission, along with partners such as the Trust for Public Land, are working toward a goal for all residents to be able to access greenspace within a 10-minute walk from home.

Tree Work on Statehouse Trail to Hubbard Park:

Work will begin in the next few weeks on removing some of the dead and hazardous trees—mostly Red Pine—along the Statehouse Trail that leads to the Hubbard Park tower. Buildings and General Services (BGS) is in charge of the project which will be completed by a contractor they are selecting. The Tree Board, Parks and Trees and the Vermont Forests and Recreation Agency have worked closely with BGS to develop the project over the past two years. We expect the work may take place over several weeks during which time access to the trail will be monitored and, as needed, controlled by flaggers. All cut material will remain on the forest floor. We will be making a more widely dispersed public announcement shortly when we have final details but I wanted the Council to know this is coming soon.

Responsive and Responsible Government

FEDERAL FUNDING - Updated

The US Treasury issued guidelines for ARPA fund use this week. Both VLCT and ICMA are holding information sessions next week to better explain the opportunities and restrictions. We will be reviewing our lists through the lens of these guidelines. The initial review indicates that the lost revenue and water/sewer/broadband categories are most relevant to our direct needs.

City staff is creating a summary of potential uses for the incoming \$2.158M in federal funds. Reminder that we will receive \$1.079M this year and another \$1.079M next year. Items fall into certain categories:

- Projects and equipment which were deferred as a result of the FY20 and FY21 budget mitigation plans to address the sudden revenue losses. This will exceed the \$1.079M for this year. About \$400K worth will need to go into the 2022 funding.
- Projects and equipment which were not funded in the FY22 budget due to projected revenue shortfalls. These would come from the 2022 funding after the \$400k already deferred.

The remaining categories will be subject to funding eligibility.

- Major projects in development which exceed the annual capital plan and would normally require bonding and/or multiple funding sources.
- Current projects facing budget constraints.
- New projects and economic initiatives which have been proposed in the last year or less.

Today we submitted applications for earmarked funds to Senator Sanders for the following:

1. East State St.: preliminary and final design
2. WRRF Phase 2 Construction

3. Rec Center Renovations
4. Confluence Park
5. Public Access Restrooms
6. Cemetery Chapel Building Repairs
7. Senior and Multi Use Van

COLLECTIVE BARGAINING - Updated

We begin active negotiations with the Fire Union on Tuesday the 18th and with the DPW Union on Tuesday the 25th. We meet with both Police unions on the 18th to establish a bargaining schedule.

More Housing

Possible Projects

The City Manager's office and Planning & Development Department continue to work regularly on two potential private housing projects in Montpelier. One may require use of TIF for infrastructure. The other has recently sent a notice to neighbors about a housing initiative on Northfield Street.

Inclusive, Equitable and Engaged Community

Summer Farmer's Market

The first of the Summer Farmers Market will be held this Saturday at 133 State Street from 9-1 with over 40 vendors. We were delighted with the support folks gave the winter market—in all kinds of weather—and look forward to that same support every week this summer season.

Join Jeanne Felmly, a licensed Real Estate Broker with Dome Real Estate Group, for her annual MSAC discussion about the basics of the real estate transaction. Many people are overwhelmed by how complicated the process can become, and this workshop is designed to educate the lay person starting with the common questions: What do I have to do to prepare my home for sale? How do Real Estate professionals qualify buyers? How do I evaluate offers? Other relevant topics will include forms and disclosures required by law, representation and how the real estate community works together, what to expect from a home inspection and the potential impact of the sale and much more. 3SquaresVT in a SNAP: A simpler way to get food assistance: Since the beginning of the COVID-19 pandemic, 1 in 3 Vermont residents has experienced hardships buying groceries. 3SquaresVT, Vermont's name for the Federal program SNAP, provides monthly monetary benefits that help Vermont residents stretch their food budgets, ensuring everyone has enough nourishing food to eat. Households in which everyone is both 60 and over or receive disability benefits may be eligible for 3Squares in a SNAP, a simpler application process that can enroll you in both food assistance and fuel assistance. Your benefits last for a period of three years before you need to enroll again, and there is no annual review process. You also have the choice whether to receive benefits on a Vermont EBT card or as cash deposited directly into your bank account. Thoughtfully Planned Built Environment

12-16 Main Street Long Term Use

We have recently received a couple of inquiries about the area facing Main Street for possible private development. This raises the question of the future use of the property. Some of you may recall that a prior Council had expressed a preference for green or open space there but deferred a decision until after completion of the downtown Master Plan. That plan indicated that private development was well suited for that location. This item will be on a future agenda.

Parklets

You can find the parklet application on the city's website [here](#).

Permits have been granted to Three Penny Taproom, Positive Pie, Julio's, Oaks & Evelyn and J. Morgan's.
